

ASSET MANAGER

FOUNDATION
LOGICSYSTEMS

The Most Renowned RFID
Linen Tracking and Management
Solution on the Market

ASSET MANAGER

Simply the Best Asset Management Software You Can Find!

Foundation Logic's Asset Manager maintains detailed information about every asset owned by your property - accurately recording location, status, availability and use history. Track assets and know when its location changes. Determine the actual life cycle of each item, know your current inventory levels and establish accurate future purchasing requirements.

Automate Your Processes

- ✓ Assign assets to specific rooms
 - ✓ Know what to purchase, when and how much
 - ✓ Receive ordered assets and automatically add to data base
 - ✓ Take real time inventory quickly and more accurately
-

Real Time Inventory

With the Asset Manager, taking inventory is incredibly accurate and no longer labor intensive. Process thousands of linens simultaneously without the need to touch a single item. Hand-held computers can scan up to 900 items per second!

By using our specialized RFID reader hardware options you can process large amounts of assets simultaneously, reducing labor hours by eliminating the need to handle each item.

Complete and Accurate Reports

Standardized reports help you track what was sent to the laundry, what was received from the laundry, and what items have been moved. Linen Manager features an intuitive user interface that simplifies performing data queries and report writing.

HOW IT WORKS:

ARRIVING INVENTORY

GUEST ROOMS

All items with RFID tags are defined in the software.

HOTEL EXITS

RFID reading stations prevent assets from leaving the property.

WAREHOUSE

A perpetual inventory can be kept on all hotel assets.

Hand-held scanners take inventory in real-time.

MANAGE INVENTORY. REDUCE COST.

UNIFORM MANAGER

An RFID Tracking, Management, and Inventory Replenishment System

TOWEL MANAGER

A Robust RFID Solution to Help You Manage and Maintain Your Towel Inventory

LINEN MANAGER
